PIPELINE INFRA

9M MCF

PIPELINE CAPACITY

WHAT YOU GET ACCESS TO

- **1 MW power connection** available today — no build lag
- Scalable to **1 GW+** — 136 additional well sites for completion as load grows
- Up to **1,000 acres** of adjacent land to build your facility on
- **23-mile pipeline** capable of 9,000,000 MCF, connected to the Delta pipeline system
- On-site **two service rigs**, road maintenance equipment (dozers, backhoes), and well-servicing equipment
- Eastern Kentucky — fast permitting, low density, **no grid queue**

THIS IS NOT FLARE GAS

Most off-grid power pitches are a single flare well — a garden hose. KYTX is a water main. **140 wells, 23 miles of infrastructure**, a compressor system and dehydrator already running — gas is processed and ready to convert to power. A field this size doesn't go dark.

WHO THIS IS FOR

- Edge data center operators
- AI inference deployment companies
- Bitcoin / crypto mining operators
- Colocation providers expanding edge footprint
- Any operator who cannot wait 5–10 years for grid interconnect

INFRASTRUCTURE OVERVIEW

Active wells	140
Land available	1,000 ac
Pipeline network	23 miles
Pipeline capacity	9,000,000 MCF
Pipeline connection	Delta pipeline system
Power available now	1 MW continuous
Feb 2026 net production	7,495 DTH
Feb 2026 energy equivalent	~2,196 MWh
Feb 2026 revenue (net)	\$52,266.75
Long-term scalability	1 GW+
Service rigs	2 smule / service rigs
Road equipment	Dozers, backhoes

THE OBJECTION, ANSWERED

"Natural gas wells are unreliable." Yes — individual flare wells are. KYTX is a 140-well field with 23 miles of infrastructure. That is a different category entirely.

NEXT STEP

Qualified operators receive the full **KYTX gas analysis report** and a direct introduction to the KYTX team. Reach out via stonepathconsulting.com — you'll hear back within 24 hours.

WHO'S MAKING THE INTRODUCTION

Ty Woods — technology professional since 2009, Stone Path Consulting, founding partner at Golden Path Digital. Known Hunter and the KYTX family since 2021. This is a personal introduction to people who mean business.
